I could not succeed in establishing among the members that friendly relation which should obtain among men doing the same difficult work, nor could I crush out the quarrels about the priority of discoveries, for which there were ample opportunities in those conditions of working. Whitbourne, SK. For the principle of repressions, Adler never evinced any understanding.

For the dream is only another form of thinking; the understanding of this form. Rather than engaging in behaviors designed to satisfy our desires and needs, the ego forces us to fulfill our needs in ways that are socially acceptable and realistic. The first task of psychoanalysis was the elucidation of nervous disorders.

The theory of repression is the main pillar upon which rests the edifice of psychoanalysis. Inhibitions, Symptoms and Anxiety, Freud characterised how intrapsychic conflict among drive and superego wishes and guilt caused anxiety and how that anxiety could lead to an inhibition of mental functions, such as intellect and speech. Indeed, they have refused to specify experimental conditions under which they would give up their basic assumptions.
