The key assumptions here are: one day in port for loading and two for discharge, with a boil off rate of 0. Also, derivations of the key variables, such as the future of Asia-Pacific pricing and contracting arrangements and LNG delivery costs, have yet to be developed . We have an abundant supply of this clean, affordable and reliable resource. Hendrik Gordenker. Department of... Participants will have numerous networking opportunities throughout the day. Oil price puzzle as sanctions choke Iran exports. The model, therefore, does not include contractual flows or prices Busch, and it fails to reflect the Asia-Pacific pricing and long-term contracting mechanisms. LNG export from node j to node i by long term contracts.
