Although they tend to score higher on the GMAT, which primarily tests quantitative reasoning, STEM candidates frequently face challenges writing solid essays and resumes for business school. The idea was to get experts to help write guidebooks that could help investors at hedge funds and other firms understand the investments they were making in particular industries. For example, things can go badly when the organization fails to define the project properly, when the consultant selected doesn't have the appropriate knowledge or skills, or when the consulting firm replaces the people you thought you were hiring with less-qualified substitutes. Is your current fundraising system broken, or do you need advice on how to effi Anyone applying to a top full-time, on-campus program with a GPA below 3. This allows you to offer a more accessible price point to clients who can't afford your 1-on-1 rates. First, they tend to be hired on a project basis. For MBA applicants, a good advisor should offer capabilities like analytical skills, objectivity, practical judgment, leadership, editing ability,

and emotional intelligence.
